Communication Design

Portfolio ↗

I'm Alessandra,  
an Italian designer studying Communication  
Design at the Polytechnic University of Milan.  
For me, design is a means of self-expression  
and a way to connect with the world. The great  
thing is that it's everywhere — you just have to  
open your eyes, listen, and get to work.  
Strong emotions, especially negative ones, are  
often said to be the source of art. But design  
isn't art. Here, care and passion are the keys.  
As Einstein once said, "Creativity is intelligence  
having fun."
