Communication Design

Portfolio ↗

I'm Alessandra, an Italian Communication Designer with a Master's degree from Politecnico di Milano. For me, design is a tool for self-expression and a way to connect with the world. The great thing is that it's everywhere — you just have to open your eyes, listen, and get to work. Strong emotions, especially negative ones, are often said to be the source of art. But design isn't art. Here, care and passion are the keys. As Einstein once said, "Creativity is intelligence having fun."
